Part III DETAILED ACTION

1. Claims 41-43 and 46-47 are pending. Applicant is notified the Amendment filed 4-16-03 has been entered.

2. This application is in condition for allowance except for the following formal matters:

Applicant is required to cancel the non-elected subject matter in base claim 41.

As stated in Paper No. 16, the invention being prosecuted in this case will be a method of restoring NFkB activity by administering a protein that restores NFkB activity. Currently claim 41 is drawn to administering any agent to restore NFkB activity and thereby treat autoimmunity in a mammal afflicted with an autoimmune disease resulting from a reduction in NFkB activity. In Paper No. 13, received on 6-21-01, Applicant acknowledged the Examiner does not Examine nucleic agents and therefore amended the claims drawn to such agents. Since the base claim as currently recited encompasses nucleic acid agents as well as any other agent and the claims were prosecuted as drawn to protein, Applicant is required to amend the base claim for insertion of the prosecuted subject matter.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
